Agricultural Food Products Company (AFPC) was founded in 1976 by an Amiri decree as a publicly owned Kuwaiti holding company, with a national goal of boosting the local agricultural production, in addition to delivering the top quality of fresh products to our customers. Our aims were better served after the strategic partnership back in 2014 with Suma Fruits International that acquired almost 78% of AFPC shares. The company evolved over the years to be the leading wholesaler and retailer in the field of fresh fruit & vegetable products in Kuwait. Owning & operating widely spread 28 branches, an efficient wholesale distribution network that is supported by a huge fleet of more than 30 fully equipped refrigerated vehicles and trucks as well as 100 acres farms in Al-Wafra, AFPC managed to have a full local market penetration for its products punctually delivering its fresh products and services to every consumer.
As our name suggests, Agricultural Food Products Company: Our mission is to supply every one of our customers with the freshest, highest quality fruits and vegetables, With a vision to be the leader of this line in the whole region. In a country of mixed nationalities from all-over the world we aim to source products from every country, so everyone has a taste of home—and the exotic flavors they may have never tried all with our signature freshness that is achieved through a rigorous selection of farms and partner suppliers who share our vision of affordable quality, as well as our insistence on operating a short supply chain. Our competitive edge is based on a dedicated and ultra-efficient logistics system, very efficient state-of-the-art storage facilities, highly qualified agricultural Engineers and experts, vast self-operated farms as well as an extensive distribution network. That underscores our commitment to fast, fresh delivery.
The business activity of the company is divided into retail and is directed to individuals and consumers in general either wholesale trade is for traders and shop owners in particular. What distinguishes the company and put it in the ranks of the first local companies that they encourage the local product through the cultivation of the local product and packaging, marketing and distribution to all major and subsidiary points of sale in all governorates.

The storage and supply process is carried out through the warehouses of the company, which is an area of more than 8000 square meters. It is considered an integrated service unit for the company, where the imported products are received from abroad or locally. They are stored and then cut, packaged and distributed to all branches and markets by the best experienced employees. In order to supply and transport these products, the company owns an integrated fleet of specially equipped and refrigerated vehicles for the transportation of vegetables and fruits to provide the best services to consumers.
بالإضافة إلى ما سبق تمتلك الشركة مزرعة الوفرة لإنتاج الخضار والفواكه الطازجة والخضار الورقية والحبوب ، تبلغ مساحتها الإجمالية و...80 متر مربع منها حوالي 70 متر مربع بيوت زجاجية و بلاستيكية. وحرص الشركة بشكل دائم على تطوير المزرعة بإضافة كلما هو جديد من حيث تقنية الزراعة وبناء المحاكم بشكل يحافظ على المحاصيل . بالإضافة إلى توظيف الكفاءات ذوات الخبرة والاختصاص في مجال الزراعة حيث لدينا كادر كامل من المهندسين الزراعيين ذوي الخبرة والاختصاص ، بالإضافة إلى المستشارين في إدارة المزراع والاستثمارها بشكل خاص . ومتابعة هذا النشاط الزراعي أنشأت الشركة مركزا خاصا لبيع المستلزمات الزراعية للمزارعين والمستثمرين وتوفر في المركز أفضل الأصناف من عناصر الإنتاج الزراعي كالبذور والأسمدة والأدوية والأدوات والدواجن خاصة بالزراعة.

In addition to, the company owns Al Wafra Farm for the production of vegetables, fresh fruits, leafy vegetables and grains. It covers a total area of 180,000 square meters, of which about 70,000 square meters are glass and plastic houses. The company is always keen to develop the farm by adding everything new in terms of agricultural technology and the construction of reserves in a way that preserves the crops. In addition to the recruitment of skilled and experienced specialists in the field of agriculture, where we have a cadre of full of agricultural engineers with experience and specialization, in addition to advisers in the management of farms and investment in particular.

In order to pursue this agricultural activity, the Company has established a special center for the sale of agricultural inputs to farmers and investors. The center has the best varieties of agricultural production such as seeds, fertilizers and medicine and all related to agricultural production.
